CRAFTING A MAGICAL AMULET

Â Â

InÂ ancientÂ Â times jewelry was a truly genuine object of intrinsic value, beauty and power; the embodiment of a primal force or principle, it was crafted in accordance with the rules of the Cosmos, in agreement with the Stars and designed to a specific aim!

Â

Â

The ancient jewelry combined in one- itself- the material, the symbol and the celestial moment of itsÂ purpose and meaning.
To impart on the amulet the quality of the Time, all main stages of the work are done only in specialÂ moments in time when the Sky embodies the same nature as the amulet.

Â

In an untranslated work in Latin, Hermes Trismegistus describes 15 different magical talismans (amulets)- each made with a different gemstone and connected with a specific star.Â

Each designed to grant, by God's permission, different gifts and virtues.Â

Melting the Gold, casting the jewelry and most important- fixing the gemstone, are done in a time when the Star of the particular stone and the planets are in specific positions.Â
